

# 3-PLY PERSONAL PROTECTIVE FACIAL MASK

**AVAILABLE NOW**

## Specifications:

**General:** Quality single use mask designed for excellent protection and a comfortable fit. This protective face mask is ideal for a wide range of applications and wherever fluid exposure is possible.

**Construction / Material:** Specialized non-woven material structure featuring a 3-ply pleated construction style to optimize lightness of fit, breathability, and fluid resistance. Effective liquid barrier. Constructed from 100% latex free materials.

**Method of Attachment:** Mask is secured to the face by way of cushioned, soft, non-irritating ear loops with elastic properties, allowing for ease of application and removal.

**Facial Fitting:** Facial fitting is accomplished via an embedded malleable metal flat strip along the nose bridge-line. Proper conforming ensures improved mask effectiveness with reduced potential for blow-by.

**Approvals:** FDA and CE

**Intended Use:** Personal facial protection. Single use.

**Size:** One size fits all 17.5cm x 9.5cm

**Case Pack:** 2,000 units (50 per box x 40 boxes)

Item #MP3

Minimum Order Quantity: 1 case (2,000 units)
